

Prestige

Builders, Inc. ~ Since 1968

There must be a secret to staying in business in the same city for 40 years. "No secret, really...just following through on promises you make to customers," says Jim Ernst of Prestige Builders.

These days, Jim can drive through many of Louisville's finest neighborhoods (Forest Springs North, Saratoga Springs, Polo Fields, Persimmon Ridge, Owl Creek, Lake Forest, Rock Springs) and see those kept promises and met expectations all wrapped up in **high-quality**, well-built homes.

A key to Prestige's success in new home construction is Ernst's drafting skills. "The essence of custom home building is **personalization**," explains Ernst. "Having the ability to get inside the guts of a plan and quickly design an alteration can save on time and keep the process efficient. It always amazes me how a nuance here or a subtle change there can make such a difference in the enjoyment of a home."

Prestige Builders always takes a **hands-on** approach to each project. Working on the site daily, along with his son Mark Ernst, results in strong control over quality and greater buyer satisfaction.

This winning trifecta of experience, knowledge and commitment continues to put Prestige Builders in the spotlight and continues to put Louisville families in their dream homes.
